

## Project 1: Video Sharing Community

This is a ios project using swift

I designed a text field with Danmaku effect for the user to input a comment to the video they are watching.

### Project 2 runner game

This is a pygame coded with python  
I designed game to be more interesting and entertaining for the user

## Project 3

### Property Rental Management System

I designed this website to make it easier to manage rental for land lord

The screenshot shows the login page of the PRMS - Property Rental Management System. The browser address bar shows 'localhost:7150'. The page has a navigation bar with links: Home, Users, Potential Tenants, Apartments, Appointments, Reports, and Login. The main content area is titled 'Login' and contains two input fields for 'Username' and 'Password', followed by a blue 'Login' button. The footer shows '© 2024 - PRMS - Property Rental Management System - Privacy'.

The screenshot shows the 'Potential Tenants' page of the PRMS - Property Rental Management System. The browser address bar shows 'localhost:7150/PotentialTenants/Index'. The page has a navigation bar with links: Home, Users, Potential Tenants, Apartments, Appointments, Reports, and Login. The main content area is titled 'Potential Tenants' and contains a blue 'Create New' button. Below this is a table with columns: Username, FullName, Email, and three action buttons: Edit, Details, and Delete. The table contains one row with the data: Mary, MaryM, MaryM@gmail.com. The footer shows '© 2024 - PRMS - Property Rental Management System - Privacy'.
